Brick Mix™

We understand that the choice of brick can make or break a build. It has the biggest impact on the external aesthetics of a project. That's why Wienerberger wants to give you as much choice as possible to enable you to give your project the unique appearance and character you desire.

Our new Brick Mix service gives you the opportunity to combine any of our bricks to create your own bespoke blend. With access to the largest range of bricks available in the UK, you can simply mix and match from hundreds of products for complete individuality.

Creating your own bespoke blend is easy. Simply choose the type of bricks you would like to blend together from our Brick Book or award winning Brick Selector App – or make an appointment at one of our showrooms and we can help you select bricks that would work well together. Once you've selected your preferred blend we can advise on lead times and prices.
