

### Purpose-made brick slips

Our new purpose-made brick slips are available in an extensive range of colours. They are 215 x 15 x 65mm in size and provide excellent dimensional tolerances. They provide a more cost effective option than having slips cut from full bricks.

Brick slips are becoming an increasingly popular choice, particularly for use with external insulation systems where people still want a real brick look.

Providing excellent durability and low maintenance, brick slips are ideal for new build or renovation projects and are incredibly easy to fit and point. They offer an easy way to transform or improve the look of any wall, whether internal or external.

#### All Wienerberger bricks are available as slips

Wienerberger is able to offer the widest range of brick slips available in the UK.

As well as our extensive range of purpose-made brick slips we are also able to offer any of our market leading range of bricks in slip format, meaning customers can match to existing brickwork in an easy and hassle-free way.

Please contact us for more information on our range of brick slips or to discuss your requirements.

## Complete Building Solutions

## Purpose-made brick slips

### Flexibility of use and design.

Brick slips provide the desirable finish of real brickwork in situations where using full bricks may not be possible.

Wienerberger's purpose-made brick slips are available in a wide range of colours and finishes. A selection of the range is displayed below.
