

Environmental & Sustainability Policy

Wienerberger Ltd is committed to minimising the impact of its operations on the environment.

As a responsible manufacturer Wienerberger Ltd acknowledges its duty to positively engage with communities and conserve the environment within which we operate.

Wienerberger is committed to managing social and environmental issues associated with the manufacture and distribution of building products in a considerate manner. Wienerberger aims to have a positive impact on local communities, and approach environmental decision making with future generations in mind. Wienerberger seeks to go beyond our legal and compliance requirements and to achieve continual improvement within our Environmental Management Systems to enhance its environmental performance.

Wienerberger's ISO 14001 certified Environmental Management System details our holistic approach to responsible manufacturing and defines the following objectives:

- Including environmental considerations in all investment decisions.
- Efficient and effective use of all resources including water, raw materials and energy.
- Adopting the waste hierarchy of 'reduce, reuse, recycle' in order to avoid landfill.
- Utilising renewable energy sources where appropriate.

- Increasing our awareness of the environmental and social impacts of our procurement decisions.
- Providing a safe and healthy working environment for all employees, contractors and visitors.
- Manufacturing quality building products and providing the necessary information to facilitate safe use.
- Continually reviewing the effects of our products and our packaging both in service and at the end of their useful life.
- Adopting an environmentally sound transport and distribution policy.
- Being a good neighbour by preventing pollution and protecting our environment to avoid causing environmental nuisance.
- Working closely with local communities and establishing formal Liaison Committees where appropriate.
- Cultivating the commitment of all employees to improving the environmental performance of the company.
- Encouraging high environmental standards from our suppliers, contractors and customers.

The Board of Directors give their full backing to this policy and will support all who endeavour to carry it out.
