

Energy & Carbon Management Policy Statement

Wienerberger Ltd is committed to improving energy efficiency and reducing CO₂ emissions

Wienerberger Ltd considers energy efficiency and the reduction of CO₂ emissions as an important aspect of its business. The Company is committed to meeting all relevant requirements of legislation relating to energy use, efficiency and CO₂ emissions reduction, and it is also committed to supporting any voluntary initiatives to which it subscribes.

The Company recognises that energy and CO₂ emissions reduction form an integral part of the decision making process.

The goals of the Company with respect to energy and CO₂ management are as follows:

- Maintain an Energy Management System (ISO 50001).
- Establish an Energy Plan to improve energy efficiency and reduce CO₂ emissions for each factory.
- Investigate potential application of the latest technologies to assist with energy efficiency improvement and CO₂ emissions reduction.
- Encourage the use of renewable/sustainable energy resources.
- Promote the purchase and provision of energy efficient products and services.
- Promote energy policies and energy awareness across the production team, including implementation of standards and delivery of training.

Wienerberger Ltd will set up objectives and targets and will monitor progress on a regular basis so that the success of the corporate commitment can be communicated to its stakeholders.

The Energy and Carbon Management Policy is complementary to the Company's Environmental & Sustainability Policy, Health & Safety Policy and Quality Policy.

Wienerberger Ltd asks all employees to support all aspects of this policy to ensure that the Company can meet its energy efficiency and CO₂ emission reduction commitments.

The Board of Directors give their full backing to this policy and will support all who endeavour to carry it out.
